Proscan Online v2.0

Cases Screen

This page is fast, easy to use, and designed
to **save you time!!!**

Drop down to quickly sort
between your patients and
those of the entire practice

Statuses available for searching:

- **Scheduled:** shows all your patients that are scheduled for future scanning
- **Waiting for Images:** shows all your patients that are currently being scanned
- **In Review:** shows studies that are in read with a radiologist
- **Final Report:** shows final reports that have not yet been 'delivered'
- **Delivered:** shows final reports that have been delivered to your office

(*Note: single and multiple filters function with full or partial text!)

If you need further assistance, please contact IT at 513.924.5100 or helpdesk@proscan.com
