

JOB OPENING: Diagnostic Radiologist, Proscan Imaging

Facility	PROSCAN Imaging, LLC. (www.Proscan.com)
Position title	Diagnostic Radiology
Specialty	MSK and/or Neuro
Location	Indianapolis, IN
Work setting	Private/Group Practice, Outpatient Imaging Centers
Travel Required	Local only

We are seeking an entrepreneurial Diagnostic Radiologist to join ProScan Imaging. An ideal candidate is seeking a unique, challenging opportunity to improve their skills as a practitioner, grow their own business and learn alongside ProScan's founder, Dr. Stephen Pomeranz. An ideal candidate is a board eligible / board certified radiologist. This candidate should also have completed a musculoskeletal fellowship and/or neuro fellowship or have comparable expertise in this field.

Proscan is one of the oldest, largest and most successful advanced imaging private practices in the United States. Independently owned and run by physicians for physicians, we serve every state and multiple countries, including hospitals, pediatric hospitals, clinics and large specialty practices.

For radiologist who love reading MRI, ProScan is the place for you. Our practice received approximately 1,300 to 1,400 cases per day from multiple states and approximately 300 locations. More than 70% of our casework is musculoskeletal and neuro MRI. The remaining 30% is a mix of body MRI and other modalities, including CT, US and radiography. Case mix also includes a health complement of breast MRI, prostate MRI, cardiac MRI, MRCP, pelvic floor imaging and ENT MRI.

The ideal candidate is also a life-long learner. Proscan is ACCME accredited to provide Continuing Education; fellows come from all over the world to train at Proscan and we have developed proprietary training methods designed to improve the skill-level of our doctors that is unmatched in private practice. We have also created hundreds of hours of video lectures and accumulated tens of thousands of teaching cases, which we make available to all our doctors.

The majority of the cases read will be musculoskeletal and neuro. General radiology skills are also required for outpatient X-ray, US and CT studies. Mammography is not required.

We offer competitive compensation and bonuses for additional reads beyond base. Radiologists will also have an opportunity for ownership in our four (and growing) Indianapolis imaging centers. Therefore, compensation is not capped. In addition, retirement funding, defined benefit plan, annual CME stipend, unlimited access to our online CME-accredited educational material, health, dental, vision, life insurance/ disability coverage, malpractice insurance and licensure are administrated and paid by Proscan.

Finally, Proscan's technology team is the best in the industry. One of the world's first teleradiology practices, we developed our own HIPAA-compliant and secure image retrieval and delivery network, fully staffed and monitored around the clock. Proscan's IT team and radiology support team allows case reading from multiple locations, which translates into work flexibility. Our practice is committed to a sustainable balance between professional growth and personal/family goals.

To apply, please send a resume/CV to Holly Focke (hfocke@proscan.com, 513-924-5314).
